Guiding Questions:

Do you agree with the key points of the writer's vision statement?

Should the key points of the writer's vision statement be weighted equally, or should specific points be more emphasized?

Guiding Questions

- Do you agree with the key points of the writer's vision statement?
- Should the key points of the writer's vision statement be weighted equally, or should specific points be more emphasized?

KRS 158.6453 Standards Revision Requirements

The standards revision to the content standards shall:

- Focus on critical knowledge, skills, and capacities needed for success in the global economy;
- ► Result in fewer but more in-depth standards to facilitate mastery learning;
- Communicate expectations more clearly and concisely to teachers, parents, students and citizens;

KRS 158.6453 Standards Revision Requirements

The standards revision to the content standards shall (continued):

- Be based on evidence-based research;
- Consider international benchmarks; and
- Ensure that the standards are aligned from elementary to high school to postsecondary education so students can be successful at each education level.

Standards (and Assessments) Review Process – to occur every 6 years

Committees formed: Review/Development Committee (RDC) and Advisory Panels (AP) Commissioner takes to Interim Joint Committee on Education (IJCE) Commissioner provides report to Standards/Assessment Process Review Committee (SAPRC)

Public Comments sought on standards (by third party)

RDC reviews final proposal; sends to Commissioner

SAPRC recommends proposed changes to KBE

APs consider comments and propose/recommend changes to the standards

APs consider comments and finalize proposed revisions KBE approves proposed changes and regulation change process commences

RDC reviews APs recommendations and makes decision on moving forward Public Comments sought on recommended revisions (by third party) New standards implemented in all schools no later than second academic year following the process

KAS for World Language Timeline Overview

- ► August/September 2019 Open standards for public comment/feedback
- ► January/February 2020 Initial World Language Advisory Panel (AP) meetings
- ▶ March Initial World Language Review Committee (RC) meetings
- ▶ May/June World Language AP meet for review and revision; World Language RC meet for review and revision
- ▶ August/September Open draft World Language standards for public comment/feedback
- ▶ October Finalize draft World Language standards
- **▶ December** First reading by Kentucky Board of Education

Writer's Vision Statement

- Provide equitable opportunities and capabilities to use language and cultural knowledge;
- Ensure a rich exposure and understanding of both people, places and practices of the target culture;
- Empower students to become individuals who are inquirers, empathetic, risk-takers, reflexive and good communicators; and
- Intentionally push the focus of culture to the core of the language learning experience.

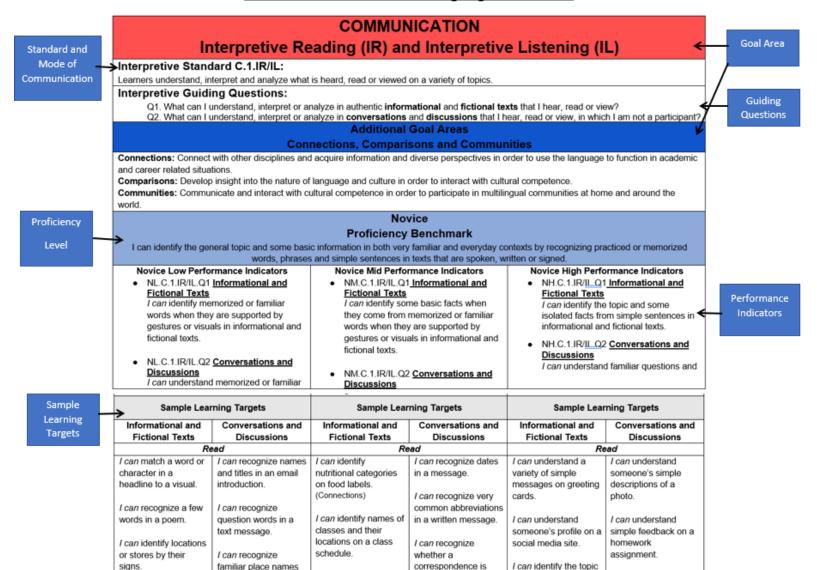

Highlights:

- ✓ The progression was based upon the ACTFL proficiency levels and the NCSSFL-ACTFL can-do statements. The progressive nature of language acquisition forms through proficiency levels from Novice to Intermediate to Advance.
- ✓ Use culturally appropriate verbal and nonverbal skills to build relationships with people of different cultures.
- ✓ Intentionally push the focus of culture to the core of the language learning experience; the global competencies are highlighted in more detail, and sample topics related to equity are specifically included.

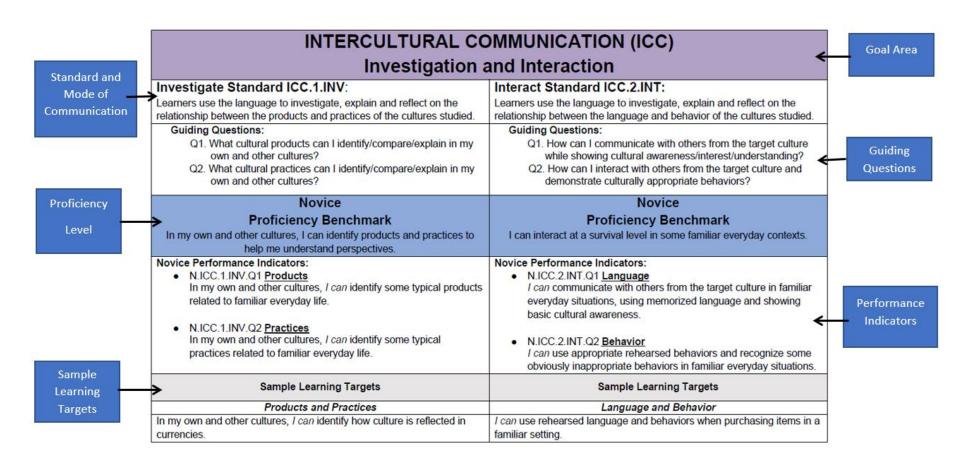

Highlights:

- ✓ Sample learning targets integrate the additional goal areas of Connections, Comparisons and Communities within a variety of categories.
- ✓ Align to the American Sign Language learning, language has been introduced to account for receptive and expressive signing. These have been included in sub-headings for sample learning targets in interpretive as "viewed," interpersonal as "signing" and presentational as "signed."

How to Read the World Language Standards

How to Read the World Language Standards

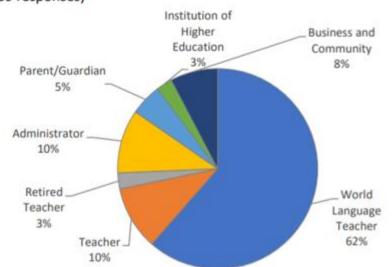

Public Feedback/Comment Survey Results

Public Comment Period: Survey Details and Respondent Roles

Respondent Information

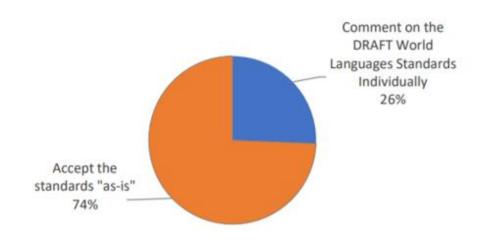

Which role best describes your affiliation with KY public schools? (39 responses)

Respondent's Affiliation	%
World Language Teacher	61.5
Teacher	10.3
Retired Teacher	2.6
Administrator	10.3
Parent/Guardian	5.1
Institution of Higher Education	2.6
Business and Community	7.7

Public Comment Period: Accept Standards "as-is"

How would you like to provide feedback to the DRAFT World Languages standards?
(39 responses)

Type of Feedback	%
Comment on the DRAFT World Language Standards Individually	25.6
Accept the Standards "as is"	74.3

• 74% accepted the standards "as-is"

Public Feedback and Additional Comments

Suggestions and Recommendations:

- Streamline and simplify the document
- Place Intercultural Communication Standards (ICC) standards before the Communication standards
- Include a framework in the Investigation standards
- Review the language of the Interaction standard

Additional Feedback Sought from Various Groups

- Student Advisory Council
- School Curriculum Assessment Accountability Council
- State Advisory Council for Gifted and Talented Education
- State Advisory Council for Exceptional Children
- Local Superintendents Advisory Council
- Principal Advisory Council
- Teacher Advisory Council
- Two focus groups also were conducted in November 2020 to gather feedback from (1) student representatives (Fayette County) and (2) Kentucky World Language Association (KWLA) representatives.

Writer's Vision Statement

- Provide equitable opportunities and capabilities to use language and cultural knowledge;
- Ensure a rich exposure and understanding of both people, places and practices of the target culture;
- Empower students to become individuals who are inquirers, empathetic, risk-takers, reflexive and good communicators; and
- Intentionally push the focus of culture to the core of the language learning experience.

Questions?

IV. Accountability Changes

Jennifer Stafford and Jenni Larkins, Office of Assessment and Accountability, Division of Assessment and Accountability Support, Kentucky Department of Education

Guiding Question: What feedback might you provide regarding the proposed changes to accountability as this topic goes before the Kentucky Board of Education?

Of the amendments and recommendations to the regulation 703 KAR 5:270, what are your thoughts, opinions, and reactions?

Senate Bill 158 (2020)

Impact of SB 158 (2020)

- Senate Bill 158 (2020) makes significant changes to the statewide accountability system and the achievement gap definition.
- Changes include:
 - Performance-based on a combination of academic and school quality indicators and measures known as "state indicators." SB 158 <u>exclusively</u> lists these indicators.
 - Requires state indicators be evaluated on "status" and "change" and defines the terms.
 - Requires a school's overall performance, status and change to be displayed on an online dashboard.

Status and Change for State Indicators

Senate Bill (SB) 158 stipulates that school performance must be measured exclusively for the designated indicators.

- Status, which is defined as the annual school-level summary based on student performance that year, and
- Change, which is defined as the difference between one year's Status score and the subsequent year's Status score, e.g., 2022 State Assessment Results for Reading and Mathematics (Proficiency) compared to 2021 State Assessment Results for Reading and Mathematics (Proficiency).

State Indicators

- State Assessment Results in Reading and Mathematics (E/M/H)
- State Assessment Results in Science, Social Studies and Writing (E/M/H)
- English Learner Progress Toward English Language Proficiency (E/M/H)
- Quality of School Climate and Safety (E/M/H)
- Postsecondary Readiness (High School Only)
- Graduation Rate (High School Only)

Summary of Regulation Changes

- Alignment of language and requirements to SB 158 (2020)
- Alignment of language in regulation to process for dual credit data collection for academic and career readiness
- Recommendations to KBE based on guidance and discussion from Nov. 6 meeting
 - Status and Change for indicators;
 - Weights and combining performance; and
 - English learner progress indicator with flexibilities; and
 - Minimum-n count.
- Connects reporting requirements in Section 5 to Kentucky's Consolidated State Plan

Combining Status and Change

Low in Current Year						Low in Current Year		
Very Low in Current Year	Вох А				Box D	Very Low in Current Year	Вох А	

LEVEL	Declined Significantly from Prior Year	Declined from Prior Year	Maintained from Prior Year	Increased from Prior Year	Increased Significantly from Prior Year
Very High in Current Year	Вох С				Вох В
High in Current Year					
Medium in Current Year					
Low in Current Year					
Very Low in Current Year	Box A				Box D

As defined in SB 158, KDE and LSAC will approve the numerical cut scores that move performance from one cell to another.

Weights and Overall Designation

Proposed Overall Accountability Weights

Overall Accountability Weights							
	State Assessment Results (Reading and Mathematics)	State Assessment Results (Science, Social Studies and Writing)	English Learner Progress	Quality of School Climate and Safety	Postsecondary Readiness	Graduation Rate (4- and 5- year cohort)	
Elementary Schools	51	40	5	4	-	_	
Middle Schools	46	45	5	4	-	-	
High Schools	45	20	5	4	20	6	

Federal law requires the greatest emphasis on Reading and Mathematics and English Language progress at elementary and middle schools. At high school, federal law requires emphasis on Reading and Mathematics and Graduation Rate.

Proposed Overall Designations

- An overall performance rating for elementary, middle and high schools reported using a color rating system to communicate performance of schools, with red being the lowest rating and blue being the highest rating
- Color ratings to include five performance levels from highest to lowest, Blue, Green, Yellow, Orange and Red

Color Ratings:

Blue

Green

Yellow

Orange

Red

Minimum N Count

Minimum N Count

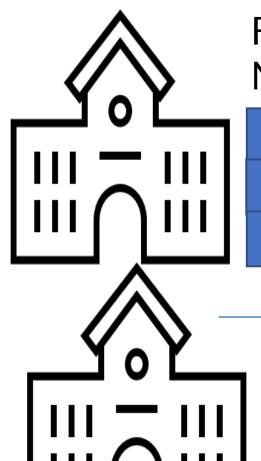

Under the Every Student Succeeds Act (ESSA), states are responsible for setting the minimum number of students needed to form a student demographic group for federal accountability and reporting purposes.

Proposed Minimum N-Count of 30 All Students per School or Student Group

- Emphasize more reliability and less inclusion, while keeping the system very simple (e.g., implement a single rule about n-size, such as increase the minimum-n to 30 per school/student group)
- Continue to report in the School Report Card (SRC) at 10 per grade
- Kentucky reports by school level (elementary, middle and high)

40

Recommended N-Count All Students per School or Student Group

Reading and Mathematics (Grades 3-5)

N-Count = 30 Example

Grade 3 – 5 students

Grade 4 - 10

Grade 5 – 25 students

Exceeds 30 total students
Indicator is included in Accountability

Grade 3 – 5 students

Grade 4 - 10

Grade 5 – 5 students

Less than 30 total students, Indicator is NOT included in Accountability

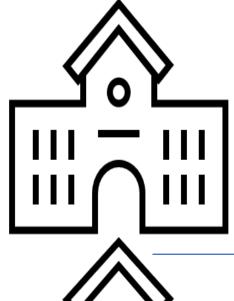

Note: N-Count larger than 30 may be problematic to get approved from USED.

Recommended N-Count (continued)

All Students per School or Student Group

Science (grade 4), Social Studies and Writing (grade 5)

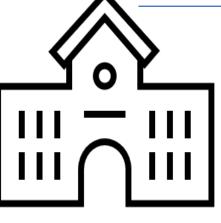

N-Count = 30 Examples

Grade 4 – 35

Grade 5 – 5 students

Exceeds 30 total students Indicator *is included* in Accountability

Grade 4 – 5 students

Grade 5 - 5 students

Less than 30 total students, Indicator *is NOT included* in Accountability

OAA:DAAS: December 2020

Accountability Regulation 703 KAR 5:270 Tentative Timeline

- Aug. 2020 -- Overview of SB 158 changes with Kentucky Board of Education (KBE)
- Oct. 2020 -- Direction and guidance from KBE on accountability regulation
- Dec. 2020 -- 1st reading; Amendments to Accountability Regulation
- **Feb. 2021** -- 2nd reading; Amendments to Accountability Regulation
- Mar.- Apr. 2021 -- 60-day public comment period
- June 2021 -- Statement of Consideration and Possible Additional Amendments to 703 KAR 5:270 to the KBE
- If approved by the KBE, the regulation will move through the legislative committees in Summer 2021.

GROWTH AND EVALUATION

Certified Evaluation Planning

Published: 10/22/2020 9:51 AM

COVID-19 Resources for Certified Evaluation Planning (CEP)

Certified Evaluation Plan (CEP) Modifications due to COVID-19

SB 177 signed into law on March 24, 2020, provides:

Section 8. Notwithstanding KRS 156.557 and 704 KAR 3:370, for the 2019-2020 school year, a local board of education may revise the district's certified evaluation plan due to the COVID-19 public health emergency.

In response to the COVID-19 public health crisis, SB 177 allows Kentucky school districts the ability to modify the district's Certified Evaluation Plan (CEP) for the 2019-2020 school year. The CEP can be modified to address the needs of the district during this time. CEP's modified for the 2019-2020 school year, only require local school board approval. **KDE approval is not required.**

What if the District is unable to follow the procedures established in the Certified Evaluation Plan due to the COVID-19 closures?

The CEP can be modified to address the needs of the district during this time. KDE recommends districts consider their needs related to evaluation and make changes appropriately for what works best for their educators. The modified CEP must be approved by the local school board.

What changes can be made to the CEP to ensure evaluations are completed this year?

The General Layout of the Guide

ENGAGING STUDENTS IN LEARNING (3c)

Do learning experiences give each student the opportunity to do the learning and engage in ways that are challenging, authentic, and relevant?

- students intellectually, requiring them to think and collaborate.
- Learning experiences engage V Learning experiences support Students take initiative curiosity, encourage critical thinking and include multiple ways for students to engage and represent their ideas.
- to increase the challenge, complexity, relevance, and rigor of learning experiences.

In order for successful learning to occur for each student, intellectual engagement is a necessity. Knowledge of students, planning for instruction, assessment, routines and procedures, and other aspects of teachers' responsibilities are ultimately about creating opportunities for students to engage with content, with one another, and with their own learning and development process. Teachers must provide rich opportunities, promote teamwork, use engaging materials, and give students time to reflect on learning - especially in a virtual environment. Busy work, such as mindlessly filling in blanks on digital worksheets, is as unproductive in online learning as it is in person. In some cases, it may be more challenging to determine whether students are engaged in online learning experiences. The cues that teachers look for may be less obvious in online environments, and it may be easier for students to fade away. It is essential, therefore, that teachers use the myriad of online resources at their disposal to support student engagement.

Elements of Success

Rich Learning Experiences

Students demonstrate agency and critical thinking in completion of tasks and activities that require high levels of intellectual engagement.

Collaboration and Teamwork

Student collaboration is a key component of learning and engagement, and students take initiative to collaborate in new or unplanned ways that further their learning and make it more engaging and meaningful.

Use of Instructional Materials and Resources

Instructional materials and resources are used effectively to support intellectual engagement and deep learning of the content.

Opportunities for Thinking and Reflection

Individual lessons, activities, and tasks, as well as instructional pathways, have multiple and effective opportunities to think, reflect, and consolidate understanding,

PRIORITIES

ENGAGING STUDENTS IN LEARNING (3c)

- · Encouraging multiple ways of interacting, multiple modes of accessing information, and multiple means of representing thinking.
- Making space for student choice and interest-driven learning across all subjects.
- · Celebrating and sharing student creativity, curiosity, and resilience.
- Maintaining and modeling a learning stance on engaging through technology so students feel free to explore and improve their experience.
- Deviating from plan in the face of authentic student curiosity and initiative.

START HERE

STRATEGIES

ADDITIONAL

- Plan for individual and group projects that are purely interest based.
- Audit your plans and assignments for points where students might be offered more
- → Know your content "critical path" what you must convey versus what you can hold lightly if spontaneous opportunities for student innovation appear.
- → Find a technology friend. Students will always adopt technology faster than adults, so have someone you can learn with when a new app or feature emerges that might further engage your students.

Synchronous Engagement

- + Consider holding one-on-one meetings with students to dig into how they are engaging with asynchronous work.
- → Plan synchronous screen time using a combination of audio and visual cues such as infographics and videos.
- + As students engage in tasks or activities, consider how students will share their thinking and reasoning by chat, in an online document, or other written response.
- → Provide opportunities for students to partake in collaborative, inquiry-based research using websites or online articles.
- + Allow students to submit assignments in a variety of forms such as PowerPoint, Prezi, or pre-recorded segments.

Asynchronous Engagement

- + Create a choice board to provide both structure and choice. For instance, post the board on Monday, and give students until Friday to complete it, at which time you can have a discussion to reflect on the key ideas and an assessment.
- → Find or create interactive presentations that guide students through information, activities, and inquiry.
- → Use a tool or platform to create an opportunity for reflection by asking students to post at the end of their day. This builds accountability and ownership, while giving students a flexible way of sharing and synthesizing.

- → Find a technology friend. Students will always adopt technology faster than adults, so have someone you can learn with when a new app or feature emerges that might further engage your students.

Synchronous Engagement

- → Use an app that supports backchannel conversations during class discussions - and also allows the conversation to continue when the synchronous learning ends.
- → Utilize breakout rooms to prioritize small group discussions, which are typically more effective and engaging than whole-group discussions.
- → When a student responds, encourage all students to write a comment or give a thumbs up/down to express agreement or disagreement and a reason.
- → Give student facilitators opportunities to "share their screen" to show their work or explanations rather than verbalizing everything.

Asynchronous Engagement

- → Create spaces for offline discussions: blogs, chat spaces on LMS, shared Google docs, etc.
- → To support student autonomy, create sign-up sheets for informal discussion groups (via phone or video conference platforms) based on lesson or project assignments.
- → Periodically send brief surveys or emails during the day that include questions written to prompt thinking and ask students to explain their reasoning.

Reflection Questions:

What are some best practice synchronous and asynchronous engagement strategies in your school?

What connections can be made to your school's examples and the provided additional strategies?

Possible Examples

- Students are able to fill out the worksheet without fully understanding what it's asking them to do.
- in parts, but rushed or dragging in others.
- Students are asked to fill in a worksheet, following an established procedure.
- There is a recognizable beginning middle
- Students are asked to formulate a hypothesis about what might happen if the American voting system allowed for the
- Students are asked to write an essay "in the spirit of Hemingway."
- A student asks whether they might remain

te another nan work

rown

ing from the

There are strengths to both approaches. Effective remote teaching requires a combination of both synchronous and asynchronous learning.

Synchronous Engagement

→ Ut

→ WI

"Could this live video chat be a recorded video instead?"

If the answer is yes...then a prerecorded video is a better option.

to snow their work or explanations rather than verballzing everything.

Asynchronous Engagement

→ Create spaces for offline discussions: blogs, chat spaces on LMS, shared Google docs, etc.

- → To support student autonomy, create sign-up sheets for informal discussion groups (via phone or video conference platforms) based on lesson or project assignments.
- → Periodically send brief surveys or emails during the day that include questions written to prompt thinking and ask students to explain their reasoning.

Any of the type of communication you would do in-person that you are now doing with digital tools.

Key advantages of *Synchronous*? Dynamic, interactive communication and the ability to create shared experiences together. Immediate responsiveness from teacher.

When to use?

- guided practice on a discrete skill incorporating immediate feedback on accuracy
- revisit difficult material
- address student challenges
- quick performance assessment with feedback in the moment
- small group brainstorming, planning, & decision-making
- deep dive into topic using class discussion to clarify misconceptions

Synchronous Engagement

- → Use an app that supports backchannel conversations during class discussions - and also allows the conversation to continue when the synchronous learning ends.
- → Utilize breakout rooms to prioritize small group discussions, which are typically more effective and engaging than whole-group discussions.
- → When a student responds, encourage all students to write a comment or give a thumbs up/down to express agreement or disagreement and a reason.
- → Give student facilitators opportunities to "share their screen" to show their work or explanations rather than verbalizing everything.

Asynchronous Engagement

- → To support student autonomy, create sign-up sheets for informal discussion groups (via phone or video conference platforms) based on lesson or project assignments.
- → Periodically send brief surveys or emails during the day that include questions written to prompt thinking and ask students to explain their reasoning.

Teacher & student interactions occur at different times.

Key advantages of **Asynchronous**?

Provides flexibility for learning. Allows learners to work at own speed to complete deadlines. High accessibility.

When to use?

- Direct instruction
- Introduce new ideas/concepts
- Students can easily rewatch/pause a video
- Promote peer collaboration
- Greater student agency
- Personalization ease

How might schools use supplemental resources to maximize the effectiveness of remote teaching?

Relative to remote teaching, ...

→ What's working?

→ How might we capitalize on what's working well to support the practice of others?

VI. Principal Partnership Project (P3) Support

Paul Prater and Stacy Noah, Office of Educator Licensure and Effectiveness, Division of Educator Preparation and Certification, Kentucky Department of Education

Guiding Question: What topics for principal support might you suggest for future Principal Partnership Project professional learning events?

Upcoming P3 Support Opportunities
